building-project for the enlargement and renovation of
the government of Gran Canaria in Las Palmas.
- 1994 - Own architectural office in Madrid

OWN COMPANY, WDARQUITECTOS - NOSOARQUITECTURA S.L.

In 1995 the own company started in Madrid with small restoration projects of apartments and commercial spaces. Since then, our focus on Architecture, based on careful elaboration of design-criteria, space-programs and material-choice, and our implication and performance during the building-process have contributed to a continuous growth of the company.

Therefore in 2007 the company was transformed in Nosoarquitectura S.L. to provide a more structured attention to the clients and to adapt the company-organization to the new quite big commissions for new buildings of different use, we have actually finished or partially finished.

Due to the crises and the paralysation of some of the projects, Nosoarquitectura S.L. has been suspended temporally, working Werner Durrer right now as a Freelance-Architect

Most important projects and buildings:

PROJECT TYPE	NAME	LOACATION	SCOPE	DATE	M ²	COST	STATUS

	Restaurante Olivarseis, C/ Olivar 6	Madrid	PBE / DO	2005	150	136.589,24 €	Finished

Furthermore we did preliminary urban studies as for example the proposal for a pedestrian connection between the Museums and the Royal Palace right across the city-centre through the Calle Huertas, Calle de la Bolsa, and Calle Santiago

We have also executed a lot refurbishment flat projects and specific structural interventions in many downtown Madrid buildings.

Madrid, June 2014

Werner Durrer, Architect, COAM 11720
